PROFESSIONAL SUMMARIES

Experienced Web Developer specialising in Node.js, Express, React, MongoDB, and MySQL. Skilled in building scalable, secure, high-performance web applications with seamless frontend-backend integration. Proficient in HTML, CSS, and JavaScript, with experience designing dynamic user interfaces using React and developing robust RESTful APIs. Committed to delivering efficient, user-centric, and maintainable solutions.

SKILLS

Technical Skills   JavaScript, Node.js, Express.js, ReactJS, HTML, MySQL, MongoDB
Soft Skills   Problem-Solving, Time Management, Adaptability, Team Collaboration
Interests   Cricket, Continuous Learning, Skill Advancement
Languages   English, Malayalam

EXPERIENCE

Web Developer Intern   May '24 — Dec '24
FinGlider   Bangalore

- Completed a web development internship focused on learning Node.js, Express.js, and Git for version control.
- Contributed to the Glider Global Learning Academy project by building backend features and implementing RESTful APIs for scalable web applications.

Web Developer   Jan '25 — Present
FinGlider   Bangalore

- Developed a multi-role LMS for Glider Global Learning Academy with dedicated dashboards for Admins, Instructors, and Students.
  Implemented quiz management, result tracking, and RESTful API integration for smooth user interactions.
  Built admin features for managing courses, syllabus, batches, users, and documents with a fully responsive UI.
- Contributed to GoDigex, a supermarket eCommerce platform, by implementing WhatsApp-based order notifications and feedback. Developed admin tools for order management with PDF/Excel export and a dynamic banner system with scheduled promotional displays.

PROJECTS

GliderGlobal Academy, FinGlider Link

- Developed a multi-role Learning Management System (LMS) with dynamic dashboards for Admin, Instructor, and Student users.
- Implemented real-time quiz participation and result tracking using WebSockets, along with RESTful APIs for seamless data operations.
- Built comprehensive admin features to manage courses, syllabus, batches, instructors, students, and supporting documents.
- Designed and deployed a responsive, user-friendly interface for role-specific tasks including quiz creation, assignment, and learning progress tracking.
- Tech Stack: JavaScript, Node.js, Express, MySQL

GoDigex, FinGlider Link   Present

- Contributed to an existing eCommerce system by building an admin-controlled feedback system that sends WhatsApp messages to customers with order details and feedback forms upon order completion.
- Implemented real-time WhatsApp messaging integration for customer engagement and automated delivery notifications including pricing and order summary.
- Developed an order management screen with export options, allowing admins to download order data as PDF and Excel reports.
- Enabled banner/offer management by allowing admins to upload promotional images with start/end scheduling for dynamic client-side display
- Tech Stack: React, Node.js, Express, MongoDB

CERTIFICATIONS

Python For Beginner s Course In Depth, Udemy

Python Django - Angular- Full Stack Web Development Expert, National Council for Technology and Training

EDUCATION

B Tech in Information Technology, College of Engineering Thalassery (GPA: 75%)   Aug '18 — Aug '22
HSE in Biology Science, Kkm Ghss Orkkatteri (GPA: 82%)   Jun '16 — Mar '18
